## About the Data

Regulated financial institutions record and report lending activity to small businesses and small farms to the Federal Financial Institutions Examination Council (FFIEC). CRA Aggregate Reports allow users to track lending in low- and moderate-income census tracts.

Geographic Availability	Most Recent Data	Update Frequency	Download Formats
Census Tract, County, MSA, Nation	2014	Annually	PDF, XLS

## Methodology and Data Sources

CRA Aggregate Reports are compiled from information submitted to the FFIEC by regulated lending institutions. Reports disclose loans to small businesses and small farms within a given geography, with information on both the loan size and the relative income of the census tract in which loans were made. Reports summarizing activity by lender are also available.
