WHY IS THIS DIFFERENT?
PAYING FOR OUTCOMES

WE NEED TO STAY FOCUSED ON OUR MARKETING PRIORITIES AND NOT GET DISTRACTED BY EVERY SHINY NEW — LOOK, SQUIRREL!

Tom Fishburne, marketoonist.com
595 low-income 3 and 4 year olds were enrolled in the Utah High Quality Preschool Program in 2013-14 and will have their academic progress tracked from K-6 grade.

Children participating in the program were given the Peabody Picture Vocabulary Test to determine how many, absent high impact preschool, would likely require special education services in the future.

110 children that tested two standard deviations below average were assigned to the “success payment” group.
$725,000 senior loan from Goldman Sachs.

$375,000 subordinate loan from J.B. Pritzker (a high net worth investor).

United Way of Salt Lake oversees implementation of the project and manages investor repayments.

Every year of avoided special education generates a success payment of $2,470/child plus 5% interest to Goldman Sachs and J.B. Pritzker until senior and subordinate debt is fully repaid ($1,040/child thereafter through sixth grade).
The United Way of Salt Lake was also an end payer for this initial cohort.
PAY FOR SUCCESS
NEW AND UNPROVEN

New York City – Recidivism reduction at Rikers Island Prison (Aug 2012)
Salt Lake County – Special education avoidance (June 2013)
New York State – Recidivism reduction and labor force reentry (Dec 2013)
Massachusetts – Prison avoidance and employment support for at-risk young men (Jan 2014)
Chicago – Special education avoidance (Oct 2014)
Massachusetts – Supportive housing for the chronically homeless (Dec 2014)
Cuyahoga County – Foster care avoidance (Dec 2014)
Santa Clara County – Supportive housing for the chronically homeless (July 2015)

Rikers Island Juvenile Justice Social Impact Bond

The City of New York, Bloomberg Philanthropies, Goldman Sachs, and MDRC launched the first social impact bond in the US in 2012 to expand a program designed to reduce recidivism among 16 - 18 year olds incarcerated on Rikers Island, the New York City jail.

**Investment Overview**

- Proceeds were used to finance the expansion of a Cognitive Behavioral Therapy intervention that taught skills such as anger management and conflict resolution
- Repayment of the loan was based on decreases in recidivism
- Year 1 results showed no statistically significant impact; thus, the program ended in August 2015
