Our Ongoing Learning to Action Journey:

- Seized the Moment
- Led with Data and Core Values: Systems Change
- Board Buy In: Our Strategic Plan
- Started with the basics
- Learned alongside our members
- Centered racial equity in our programs, communications, and policy
- Developed a Community of Practice
- Codified our Values: Racial Equity Commitment to Action
http://www.funderstogether.org/funders_together_commitment_to_racial_equity
Diversity and Inclusion is Not Racial Equity

- Hiring people of color is not a racial equity strategy.
- Diversity: The presence of difference. Encompasses all the characteristics that make one individual or group different from another.
- Inclusion is about people with different identities feeling and/or being valued, leveraged, and welcomed within a given setting. It refers to authentically bringing traditionally excluded individuals or groups into processes, activities, and decision policy-making in a way that shares power.
- Inclusion is not a natural consequence of diversity.
- Racial Equity is about disrupting and uprooting structural racism that is embedded in all our systems and organizations.
Definition of Racial Equity

Racial equity means “closing the gaps” so that race does not predict one’s success, while also improving outcomes for all. Equity is distinct from equality in that it aspires to achieve fair outcomes and considers history and implicit bias, rather than simply providing “equal opportunity” for everyone. Racial equity is not just the absence of overt racial discrimination; it is also the presence of deliberate policies and practices that provide everyone with the support they need to improve the quality of their lives.

(Maguire 2016)
Definition of Racial Justice

Racial justice is a proactive reinforcement of policies, practices, attitudes and actions that produce equitable power, access, opportunities, treatment, impacts and outcomes for all.
7 Steps to Advance and Embed Race Equity

**STEP 1:** ESTABLISH AN UNDERSTANDING OF RACE EQUITY & INCLUSION PRINCIPLES

**STEP 2:** ENGAGE AFFECTED POPULATIONS & STAKEHOLDERS

**STEP 3:** GATHER & ANALYZE DISAGGREGATED DATA

**STEP 4:** CONDUCT SYSTEMS ANALYSIS OF ROOT CAUSES OF INEQUITIES

**STEP 5:** IDENTIFY STRATEGIES AND TARGET RESOURCES TO ADDRESS ROOT CAUSES OF INEQUITIES

**STEP 6:** CONDUCT RACE EQUITY IMPACT ASSESSMENT FOR ALL POLICIES & DECISION MAKING

**STEP 7:** CONTINUOUSLY EVALUATE EFFECTIVENESS & ADAPT STRATEGIES
Racial Equity Impact Assessment

- How does your response, even in the midst of crisis, contribute to long-term systems change?

- How are the voices of impacted communities centered?

- What data (quantitative or qualitative) are driving resource allocation? And what does that data tell you about the experiences of various racial/ethnic groups? How are women and LGBTQIA people of color particularly impacted?

- What are possible unintended consequences of the decisions you might make?

- What additional disaggregated demographic data will you collect, track, and evaluate to assess equity impacts in COVID-19 response moving forward, and how will that data inform your future decisions when the crisis is over?

- How are the actions you are taking grounded in the racialized history of this country?
A framework to go from Equity to Justice

- Give Up Power
- Center (not other) Racial Equity
- Invest in Justice not just Funding
- Partner to make Power Moves
A framework to go from Equity to Justice

• Move from Non-Racist to Anti-Racist
• Understand and Dismantle Anti-Black Racism
• Dismantle and Reimagine Systems
There is No Low-Hanging Fruit

“The tree is 400 years old and the roots are deep. These trees are deeply rooted in racism and the fruit they bear is rotten. We have to plant new seeds and toil new soil.”

- Aisha Alexander-Young, Senior Director strategy and Equity, Eugene and Agnes E. Meyer Foundation

What We Do

- **Lines of Business**: Custom community planning and cutting-edge innovations
- **Consulting & Assistance**: Systems reform, policy collaboration and advocacy
- **Policy Reform**: Research-backed tools, trainings and knowledge sharing
- **Lending**: Powerful capital funds, specialty loan products and development expertise
- **Training & Education**: Innovative tools, trainings and knowledge sharing
About CSH

Quality Supportive Housing

- Improve the lives of vulnerable people
- Maximize public resources
- Build strong, healthy communities
Strengthening and Empowering Lives and Futures, Inc. (SELF) was founded nearly 30 years ago by Dr. Sylvester Outley. SELF’s initiatives helped establish Philadelphia’s emergency housing system and programming for the homeless behaviorally challenged and substance dependent populations.

On any given day SELF serves approximately 700 homeless individuals in its nine program sites. In FY2019, SELF provided: 101,942 emergency housing beds and shelter to individuals experiencing homelessness; 147,727 meals; accommodated 13,179 individual stays through night-by-night placements; and secured permanent supportive housing for 257 individuals.

2019 HUD PIT Count Results includes Emergency Shelter, Transitional Housing, and Unsheltered.
Racial Disparity in Homeless Population National Figures

- **BLACK OR AFRICAN AMERICAN**: 40% (13% Homeless, 40% General Population)
- **WHITE**: 76% (48% Homeless, 76% General Population)
- **ASIAN**: 1% (1% Homeless, 1% General Population)
- **AMERICAN INDIAN OR ALASKA NATIVE**: 3% (3% Homeless, 3% General Population)
- **NATIVE HAWAIIAN OR OTHER PACIFIC ISLANDER**: 1% (1% Homeless, 1% General Population)
- **MULT RACES**: 3% (6% Homeless, 3% General Population)

*Percentage of Homeless Population HUD PIT vs. Percentage of General Population * US Census.*
Blindspot: Statistics on “Hispanic” Latin X individuals in both census data and HUD data
Total Individuals Nationwide = 567,715

Gender
- Male: 123,672 (44%)
- Female: 154,629 (56%)
- Transgender: 175
- Gender Non Conforming: 851

Sub Populations
- Children of Parenting youth: 9,779
- Parenting Youth: 7,564
- Unaccompanied youth: 35,038
- DV Victims: 44,752
- HIV/AIDS: 10,945
- Veterans: 37,085
- CSA: 88,873
- SMI: 116,179

Sales
Housing and homeless services - One size fits some

- Shelter (Safe Haven)
- Transitional Housing
- Rapid Rehousing
- Affordable Housing
- Permanent Supportive Housing
Supportive Housing Core Outcomes

- 43% Reduction in Number of Nights in Shelter
- 46% Savings in ER
- 50% Reduction in Number of Days in County Jail
- 51% Savings in Ambulance Transportation

More than 80% of tenants stay housed for at least one year.

Even when services are voluntary:
- 81% health care utilization
- 80% mental health treatment
- 56% substance abuse services
Key Principles: Housing First

1. Centered on Consumer choice
2. Quick access to housing (not shelter)
3. Robust support services with assertive engagement
4. Tenancy is not dependent on participation in services
5. Units targeted to most disabled and vulnerable
6. Embrace a harm-reduction approach
7. Provide leases and tenant protections

- Crisis Response

ROC Local
COVID’s Impact

Estimated impacts on homeless population
  • About 21,000 homeless people will require hospitalization
  • About 7,000 will require critical care
  • About 3,500 deaths

Estimated capacity needs
  • Addition of 200,000 units to accommodate distancing needs
  • 300,000 beds are needed to provide accommodations to all unsheltered persons.
  • The total estimated cost to meet the additional need is approximately $11.5 billion annually.

Looming Eviction Crisis
  • Between 14%-25% of renters reported not being able to pay rent in Spring of 2020 prior to eviction moratoriums that may expire
  • An estimated 4.2 million mortgages are already reported to be in a forbearance plan as of May 17.

COVID’s Impact Racial Disparity

- Hospitalization Rates
  - Non-Hispanic American Indian or Alaska Native persons have a hospitalization rate approximately **5 times** that of non-Hispanic white persons,
  - non-Hispanic black persons have a hospitalization rate approximately **5 times** that of non-Hispanic white persons,
  - Hispanic or Latino persons have a hospitalization rate approximately **4 times** that of non-Hispanic white persons.

- Black and Latino Individuals are twice as likely to die from complications related to COVID-19
  - Comorbidity of other illnesses like diabetes, hypertension, diabetes

- 10% more Black/African American and Latino individuals claiming to have difficulty paying rent when compared to White individuals.

The Disparity Index

Disparity Indices are calculated by comparing a racial group’s rate of representation in a system with all other groups. It measures the likelihood of a group experiencing system involvement compared to all other groups.
Disparity Indices in Delaware

*No Jail Data representation in a system with all other groups. It measures the likelihood of a group experiencing system involvement compared to all other groups.
Disparity Indices in New Jersey

representation in a system with all other groups. It measures the likelihood of a group experiencing system involvement compared to all other groups.
Disparity Indices in Pennsylvania

representation in a system with all other groups. It measures the likelihood of a group experiencing system involvement compared to all other groups.
A commitment to real action to confront and define systemic bias, discrimination, and racism as it manifests itself both in internal and external policies and practices

Redesigning Just and Equitable Systems

Policy and Practice that center on inclusion, listening, and incorporation of the input of people that a program claims to be serving
• Increased advocacy for public policies focused on:
  • Transforming public sector institutional and crisis response systems through a collaborative public policy and advocacy effort.
  • Prioritizing housing choice and equity to ensure everyone can thrive in the community they call home.
  • Lifting-up and centering the voices and lived experience of people who face the challenges of poverty, health and disability, racism, and discrimination in developing policy and program solutions and in our advocacy efforts for the public sector resources required to address their needs.
  • Working to rapidly create the affordable housing with supportive services needed by many of the thousands of people temporarily placed in hotel and motel rooms across the country in response to COVID-19.
  • Advocating for the resources we need to provide the affordable housing and services more than 1.1 million individuals and families currently need but lack
Questions to Consider

• To what extent do assessment scores differ across race, ethnicity, and other demographics?
• Are there staff at all levels that are representative of the population served?
• Do persons receive the service intervention suggested by assessment scores? If so, to what extent in total and across race, ethnicity, and other demographics?
• Do the data suggest implicit, or unconscious, bias?
• Of those housed, did the housing outcome correspond to the suggested intervention? Did the intervention match what the individual identified as what they wanted?
• To what extent are you part of a homelessness system that promotes transparency and inclusion to ensure that the people/community being served are represented in decision making? This includes monitoring and quality assurance in an ongoing fashion.
• Did interventions that were designed for a vulnerable population achieve equitable outcomes?
• What data is collected and analyzed to inform resource allocation and effectiveness? Who is counted?

Glossary HUD Definitions

- **Shelter** - any facility, the primary purpose of which is to provide a temporary shelter for the homeless in general or for specific populations of the homeless and which does not require occupants to sign leases or occupancy agreements.

- **Safe Haven** - serves hard-to-reach homeless persons with severe mental illness who come primarily from the streets and have been unable or unwilling to participate in housing or supportive services. Safe Havens are typically temporary placement that help homeless persons transition to Permanent Supportive Housing.

- **Transitional Housing** - designed to provide homeless individuals and families with the interim stability and support to successfully move to and maintain permanent housing. Transitional housing may be used to cover the costs of up to 24 months of housing with accompanying supportive services. Program participants must have a lease (or sublease) or occupancy agreement in place when residing in transitional housing.

- **Rapid Rehousing** - emphasizes housing search and relocation services and short- and medium-term rental assistance to move homeless persons and families (with or without a disability) as rapidly as possible into permanent housing.

- **Permanent Supportive Housing** - Permanent supportive housing is permanent housing with indefinite leasing or rental assistance paired with supportive services to assist homeless persons with a disability or families with an adult or child member with a disability achieve housing stability.
