Unemployment Insurance (UI) Claims for the Three-State Region

For the week ending August 29, workers filed 44,776 initial UI claims (NSA) in our three-state region — fewer than the prior week’s 49,370 (revised), and far below the historic peak of 599,446 (revised) for the week ending March 28.

However, workers also filed 45,951 initial Pandemic Unemployment Assistance (PUA) claims for the week ending August 29 in our three states (Pennsylvania accounted for 35,340 of these PUA claims; see note on the next page). The PUA program provides benefits for workers who are not eligible for regular UI benefits.

Initial UI claims plus initial PUA claims were 90,727 for the week ending August 29, 2020. Prior to the pandemic, the 52-week average of initial UI claims was about 24,000 for the week ending March 14.

Compared with the prior week, initial UI claims across our three states:
- fell to 1,396 from 1,678 (revised) in Delaware;
- fell to 19,249 from 20,182 (revised) in New Jersey; and
- fell to 24,131 from 27,510 (revised) in Pennsylvania.

For the week ending August 22, continued UI claims in our three-state region fell to 1,009,301 (NSA) — from the prior week’s 1,074,071 (revised).

Compared with the prior week, continued UI claims across our three states:
- rose to 35,373 from 33,171 (revised) in Delaware;
- fell to 408,589 from 411,019 (revised) in New Jersey; and
- fell to 565,339 from 629,881 (revised) in Pennsylvania.

For the week ending August 15, workers in the three-state region also filed continued claims in these special programs:
- 1,258,000 PUA claims (Pennsylvania accounted for 845,542 of these PUA claims; see note), and
- 97,252 Pandemic Emergency Unemployment Compensation (PEUC) claims. The PEUC program provides additional weeks of benefits for workers whose regular benefits have expired.

Total continued UI claims for the week ending August 15 fell to 2.4 million compared with a 52-week average of about 200,000 for the week ending March 14.
Unemployment Insurance (UI) Claims for the U.S.

For the week ending August 29, workers filed 833,352 initial UI claims (NSA) — more than the prior week’s 825,761 (revised). Workers also filed 759,482 initial PUA claims for the week ending August 29 — for a total of 1,529,834 initial claims. The 52-week average of initial UI claims was about 215,000 for the week ending March 14. Initial UI claims set a historic peak of 6,211,399 (revised) for the week ending April 4.

**Continued UI claims** for the week ending August 22 fell to 13,104,366 (NSA) from the prior week’s 13,869,079 (revised). The 52-week average of continued UI claims was just 1.7 million for the week ending March 14. However, for the week ending August 15, a total of 29.2 million continued claims were filed from all programs, including:

- 13.6 million PUA claims, and
- 1.4 million PEUC claims.

Continued UI claims typically fall slowly from recession peaks. During the Great Recession, continued UI claims peaked at 6.5 million and about five years passed before continued UI claims returned to pre-recession levels.

---

**Note:**

PUA claims data for any given week may include backdated claims from prior weeks.

ASA Weekly Staffing Index

The ASA Weekly Staffing Index rose to 76.2 for the week ending August 23. The index has risen in 16 of the past 17 weeks. The index continued to track above the record low levels that spanned much of the latter half of 2009.

The year-over-year change in this index was -20.2 for the week ending August 23. The year-over-year change has slowly narrowed since late June (at -26.6), after rebounding more quickly from a low of about -36.5 in late April through early May. The year-over-year change in this index was -8.0 points for the week ending March 15.

Note: This index is highly seasonal (see below). To aid visual comparisons, the upper chart depicts 52 weeks for key years.
